

SAONA (ISLA SENSACIÓN CARIBEÑA)

FULL DAY EXCURSION / TRANSFER FROM PUJ TO BYH

The perfect excursion for lovers of the sea, sun and nature

Experience the unique experience of sailing in Catamaran and speedboats by sailing through the different blues of the Caribbean Sea. Saona has become over the years the number one tour of the Dominican Republic. An unforgettable experience that combines the beauty of the Eastern National Park with the tranquility of the Caribbean Sea.

After an air-conditioned bus tour from the hotel past Bayahibe Beach, former fishing village, we embark on a spacious catamaran or boats and sail along the coast towards Saona. (Open Bar included in catamaran, either on the way or on the way back). When you arrive, you can rest, enjoy a paradise landscape or walk along the island. At lunchtime, the buffet will be waiting for us (rice, chicken and fish meat, pasta salad, vegetable salad, fruits and coffee), with drinks included (rum, beer, water, soft drinks).

On the way back we sail until we reach the Natural Pools, with sandbanks, a sanctuary of star sea where we can swim with them. We continue our return route, not without first making a stop at the Catuano Canal, where we will have a panoramic view of the mangroves, lush vegetation that grows exclusively in salt water.
